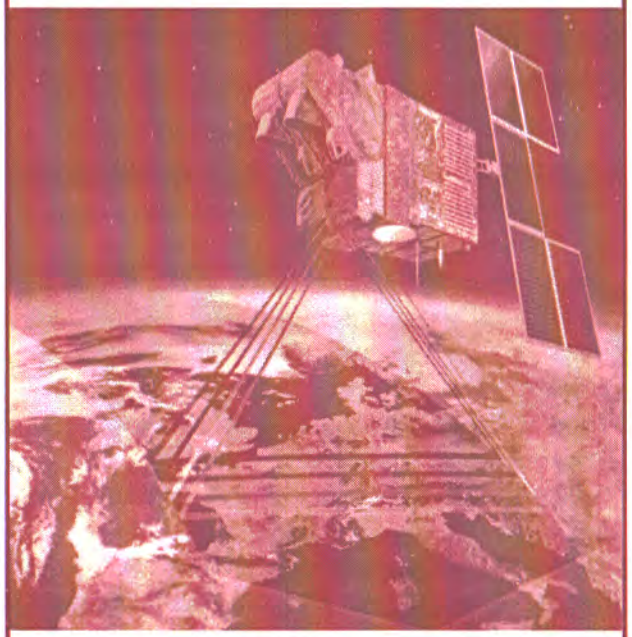
WORKSHOP PROGRAM

Advanced Applications of Remote sensing for Sustainable Development and Resource Conservation
March 31st - 1st April 2015



Jointly Organized By

Department of Studies in Geography,
University of Mysore 570 006
and
Karnataka Science and Technology Academy,
Govt. of Karnataka, Bangaluru

REGISTRATION FORM

Name of the participant:

.....

Title: Dr/ Ms / Mrs / Prof.

Gender: Male / Female

Age:.....

Designation:

.....

Department address:.....

.....

.....

Home address:.....

.....

.....

Email address:.....

Phone / mobile: .....

Accommodation needed?

Yes / No

IMPORTANCE OF THE TRAINING

Natural resources such as land, water, Air, soil, plants etc are the life line of human existence. The accountability of these environmental issues determines the quality of life of both present and future generations.

Hosts:

Department of geography:

The department of geography, University of Mysore, is engaged in research activities in various fields of Geographic interest. Currently several major and minor research projects have been undertaken. Advance Remote sensing and GIS courses are an integral part of our research and teaching curriculum.

No Registration Fee:

Maximum No. of participants: **40**

(First come first serve basis)

Spot Registration is not allowed

Last date for receipt of applications: **27-03-15**

Registration form can be detached from the brochure/photocopy and submitted.

Dr. Asima Nusrath,
Department of Geography,
Manasagangotri,
Univesity of Mysore,
Mysore 570006.

ABOUT THE TRAINING PROGRAMME

Reputed practitioners in resource management will highlight on Remote Sensing applications. This knowledge can help in introducing remote sensing in the undergraduate course and also help the research scholars in applying in the research work. The workshop will also provide practical training with the state of art softwares.

OBJECTIVES OF THE TRAINING PROGRAMME

The aim of the course is to acquaint the researchers with the latest Remote Sensing and GIS techniques so that they become useful in their research. The resource persons are all associated with reputed organizations. The workshop content is specially designed for Undergraduate teachers and Research Scholars from different branches such as Geography, Environmental science, Geology, Botany, Forestry, Town Planners, and others. The following themes shall be focused in view that after the training the candidate should be able to handle their research work independently.

Themes:

1. Geomorphology
2. Rural Development
3. Hydrology/Water resource
4. Coastal Zone Management
5. Land use Management
6. Urban Planning
7. Disaster Management
8. Natural Resources Management.
9. Agriculture and soil Management.

All participants will be given free hospitality, training material, training certification and participation attendance.

Outstation participants shall receive prior confirmation by email/ phone about their selection to the workshop and accommodation. They will also be provided with TA.
