Dr. Lalitha Rangarajan has been a Professor at the Department and is fondly regarded as "Simplicity at its Best" because of her simple way of leading life being from rich background.

She has over 35 years of teaching and 20 years of research experience and contributed to the fields of Image Processing, Pattern Recognition and Bioinformatics. She has served the University at various capacities.

She also served as Teaching Assistant in Purdue University, West Lafayette-USA, Indiana- USA.

She has guided 10 Ph.Ds and has about 100+ publications in peer reviewed journals proceedings and conferences.

We were never short of her suggestions when it was most required and her direction and loyalty in her fellow generation has always been ideal.

It is our pleasure to felicitate our beloved good teacher on the day of her superannuation.
