International project meeting on

Forest Management as Regional Governance

Will be held on 5th & 6th November 2011

in

Department of Geography, Manasagangotri, University of Mysore, and
Mysore.

The international project on Forest Management as a Regional Governance in India, is a project approved by Japanese Government under scientific research studies fund. Prof. Koichi Kimoto from Hiroshima Jogakuin University is the project head. This project has been sanctioned in April 2010. I am one of the team head entrusted to conduct research in south India.

My self and Professor Kochi Kimoto have undertaken research in South India on Joint collaborative basis. Similarly there are other three team's working in Western India, North eastern and Northern Himalaya region. During the last year we have conducted field visit's in Madumali, Bandipur and Nagarhole forest region. To review the progress of last year, a joint meeting with all the three team members has been planned to be organized in our department on **5th and 6th of November 2011.**

Team Members from other parts of India and Nepal are participating.

Prof. Koichi Kimoto
