Dear Ma'am/Sir

In continuation of our previous communication (File No.: 1-1/2024/ENV(T)JSA) dated October 10, 2024) regarding the Jal Sanchay Jan Bhagidari (JSJB) initiative, we are pleased to inform you about the release of a comprehensive technical manual titled "Simple and Practical Methods for Groundwater Recharge." This manual, jointly prepared by the Central Ground Water Board (CGWB) and the National Water Mission (NWM), provides clear guidance on constructing artificial groundwater recharge structures and is available in both English and Hindi.

The manual can be accessed on the Jal Shakti Abhiyan: Catch the Rain (JSA:CTR) web portal at: <https://jsactr.mowr.gov.in/JSJB.aspx>

We kindly request your assistance in disseminating this manual among your faculty members, staff, and students through various channels such as conferences, seminars, and social media. Encouraging the construction of artificial groundwater recharge structures within your institution and uploading details of the work undertaken—such as location coordinates, photographs, and construction details—on the JSA:CTR web portal will significantly contribute to this cause.

To obtain a User ID and Password for the portal, please send an email to jalshaktiabhiyan@ugc.gov.in, cc to diksha.ugc@nic.in, with the following details of your institution's Nodal Officer:

- Full Name:
- Designation:
- Department:
- Email Address:
- Contact Number:

In case of any technical difficulties in uploading the documents, please contact Shri Shravan Pandey, IT Consultant, NWM, at jsactr-nwm@gov.in.

We look forward to your valuable support in this endeavor.
