

# ಮೈಸೂರು ವಿಶ್ವವಿದ್ಯಾನಿಲಯ UNIVERSITY OF MYSORE

Manasagangotri, Mysuru-570 006

**STATISTICAL  
CELL**

## Genesis :

Higher education is a powerful tool to build knowledge based society. Our country possesses a highly developed higher education system offering facility of education and training in many aspects. The official statistical system is very important in a society and it has to be credible and acceptable to all sections of the society. This system must be completely independent and transparent. In view of this, Ministry of Human Resource Development (MHRD) initiated All India Survey on Higher Education (AISHE) in 2011 to build a robust database and to assess the correct picture of higher education system in India.

## The main objectives of this survey are to

1. Identify and capture all higher education institutions
2. Collect the data from all these institutions on various aspects of higher education (teachers, student enrollment, programs, examination results, education finance, infrastructure etc).

Collection of these data is through electronic mode and a dedicated portal (called AISHE portal) is developed for this purpose. AISHE application is a web application. It permits the user at different level to fill the registration form in order to receive user name and password, which will be used to login into the system and upload survey data by institutions. The Data Capture Format (DCF) and Teachers Information Format (TIF) are designed to upload data. Nodal officers appointed by the institutions themselves are responsible for filling up the DCF and uploading it to the portal.

## Data is being collected on following board items

Government of Karnataka initiated the State Scholarship Portal for post-matric students in 2019 which aims at providing a Simplified, Mission-oriented, Accountable, Responsive & Transparent 'SMART' System for faster & effective disposal of Scholarships applications and delivery of funds directly into beneficiaries account without any hassel.

Master Data from All Colleges is captured in SSP-College Information System (SSP-CIS).

### **Establishment of Statistical Cell :**

The Statistical Cell, University of Mysore came into existence in 2009. It is functioning under Planning, Monitoring, and Evaluation Board (PMEB). Since the colleges are affiliated to the university, the Statistical Cell is responsible for approving colleges for enlisting their name on the AISHE portal and to guide them for updating their college data in AISHE portal using Data Capturing Format (DCF) and Teachers Information Format (TIF).

### **Future Plans:**

Establishing a server in Statistical Cell that acts as the information hub to which data is uploaded by all the sections / departments of the University.

### **Contact**

The Nodal Officer,  
Statistical Cell, NCHS Building
