Sl. No.	Course Title	L	T	P	Credits	Formative Assessment Marks	Summative Assessment Marks	Total marks	Minimum to be scored for successful completion
1	Advanced Research Methodology	3	2	0	5	30	70	100	50
2.	Literature review in the area of research	1	4	0	5	30	50 for report & 20 for Viva Voce	100	50

COURSE – I : ADVANCED RESEARCH METHODOLOGY

Course Outcomes:

The course enables the students to understand the sociological research methods. Its also provides various research procedure as well as statistical tools and techniques through which students acquire research skills and capabilities to carryout research work effectively.

On successful completion of this course students able to

- Understand the scientific foundation and different methods of Sociological research
- Develop the Skills for review of literature relevant to their research topics.
- Develop logical thinking and critical analysis of various social phenomena
- Acquint the various statistical tools and how and when to use
- Develop the art of writing research reports.

Pedagogy:

Blended learning, survey of literature, pilot study and continuous assessment through seminar and group discussion.

COURSE CONTENT

Unit -1:

- Scientific Foundations of Sociological Research
- Learning to differentiate between Subjectivity and Objectivity

Syambal

Chhaya

- Identifying a Research Topic
- Formulating a Research Proposal and Raising Key Research Questions
- Types of Research Design : Descriptive, Historical & Experimental
- Critical Review of Related Literature
- Relationship between Theory and Research
- Distinction between Methodology, Methods and Techniques

Unit - 2:

- Types of Research: Pure, Applied, Evaluation & Participatory
- Universe and Sample
- Formulating and Testing a Hypothesis
- Survey Research
- Qualitative and Quantitative Data
- Primary and Secondary Data Sources
- Designing Research Tools: Questionnaire, Interview and Observation
- Case Study, Oral Histories and Focused Group Discussions
- Participatory Rural Appraisal and Rapid Rural Appraisal
- Validation of Research Results

Unit - 3:

- Analysing Research Data: Techniques in Analysis of Qualitative and Quantitative Data
- Use of Appropriate Statistical Tools
- Computer Packages for Social Scientists: SPSS
- Preparing Power Point Presentations and Posters

Unit - 4:

- Writing a Research Report: Content, Chapterisation, Headings and Sub-Headings, Language, Citations
- Formats for Presentation and Interpretation of Tables and Bibliography
- Types of Research Reports

COURSE – II : LITERATURE REVIEW IN THE AREA OF RESEARCH

Course Outcomes

On successful completion of this course students able to

- conduct literature review on the topic selected
- critically evaluate the past and present literature
- identify the important researchers, sources, works, institutions, methods, limitations, and trends in the chosen area
- compile accurate and qualitative bibliography
- Substantiate with suitable reasoning the area chosen by them for research work.

Pedagogy

- Discussion is the main method employed.
- Hands-on with databases for searching literature.
- Group interaction with research students in the department.
- Exploring the theses and dissertations.
- Self-directional learning (SDL) is emphasized in this course.

COURSE CONTENT

In this paper the research candidates have to:

- Select a topic for research duly in consultation with his/her guide.
- Identify the appropriate databases for literature survey and compile a working bibliography by adopting standard referencing style.
- Prepare a comprehensive and critical review of the literature highlighting the growth, development, evolution and landmarks in the area of research. The review should result in identification of gaps in the existing literature and should form the basis to present the novelty, significance and need for the study. The objectives, methodology and findings of

Syauki

the earlier studies shall be examined in the context of the research topic chosen by the researcher.
