Welcome Message...

Dear Colleagues,

Greetings from India !

On behalf of the Department of Community Medicine I extend a warm welcome to all delegates.

This Conference, being first of its kind in Mysore, deals with Medical and Social Sciences. This would provide an ideal opportunity for all Interdisciplinary stalwarts to rub shoulders on one platform. Moreover, the issues revolving around gender equity shall find newer avenues as we tread on uncharted territories throwing more light and purpose than ever before. Social issues such as gender equity, violation of women's rights and their empowerment need to be the focus areas even today in most developing countries.

This Conference would provide an ideal opportunity for inter disciplinary deliberations to take place. This would also provide fodder for more contemplation as for as the medical, social and psychological scientists are concerned.

Hence I hope and look forward to seeing you all on this momentous occasion !

with regards

Dr. Mudassir Azeez Khan

Convenor, Professor & Head
Department of Community Medicine, MMC & RI

Key objectives of the Conference

1. To understand, celebrate breakthroughs of medical and social interventions and identified challenges in relation to gender discrimination.
2. To speed-up efforts, work in progress towards achievement of equality, health and women's rights.
3. To workout strategies addressing gender gaps and preparing road map for mainstreaming of health education and practice.

■ About MYSORE CITY

Mysore is the third largest city in the state of Karnataka, India, which served as the capital city of Mysore Princely Kingdom (Kingdom of Mysore) for nearly six centuries. Located at the base of the Chamundi Hills about 146 km (91 miles) southwest of the state capital Bangalore.

The Kingdom of Mysore was ruled by the Wodeyar dynasty. Patrons of art and culture, the Wodeyars contributed significantly to the cultural growth of the city. The cultural ambience and achievements of Mysore earned it the sobriquet Cultural capital of Karnataka.

Mysore renowned for personalities such as Tippu Sultan and Sir M. Vishweshwaraiah, is also noted for its palaces, including the Mysore Palace.

The festivities that take place during the Dasara festival when the city receives a large number of tourists is world famous. It lends its name to the Mysore style of painting, the sweet dish Mysore Pak, the Mysore Peta (a traditional silk turban) and the garment known as the Mysore silk saree.

■ About MYSORE MEDICAL COLLEGE

The prestigious Mysore Medical College & Research Institute (previously called Mysore Medical College), also known as Government Medical College, is one of the oldest medical colleges in India.

In 1924 the "Mysore Medical School" was upgraded and was now called the "Mysore Medical College". The college was affiliated to the University of Mysore and the trainees were now granted Medical Degrees. Mysore Medical College was the first medical college in the state of Mysore and only the seventh in the

whole country at that time. At the request and insistence of Sri Krishnadevaraja Wodiyar the College was shifted from Bangalore to Mysore in 1930.

■ About DEPARTMENT OF COMMUNITY MEDICINE

At Department of Community Medicine we bring health education to the community. Our students and faculty are involved with educating the community about health and prevention of diseases and injury. We teach health professionals and community groups, conduct research and offer consultation and service.

The goals are to:

- ❖ Provide leadership in Prevention Research and Community-based practice.
- ❖ Conduct research, programme evaluation and dissemination.
- ❖ Evaluate public health policies for health promotion and disease prevention.
- ❖ Collaborate with state agencies and local communities in training activities.
- ❖ Provide training for prevention research.

The research mission of Community Medicine is to advance knowledge and understanding of behavioural, environmental, social and epidemiological sciences related to population health.

■ About UNIVERSITY OF MYSORE

The University of Mysore is a public state university located in Mysore, Karnataka, India. The university was founded during the reign of Krishnaraja Wodeyar IV, the Maharaja of Mysore in 1916.

The University became the first outside the domain of the English administration in India, the sixth university in India as a whole, and the first ever university in Karnataka.

The prestigious University of Mysore is accredited “Grade A” by National Assessment and Accreditation Council (NAAC), while its academic staff was ranked amongst the top 5 across India.

■ About the CONFERENCE

2015 is the year for the achievement of Millenium Development Goals. While accomplishments are celebrated and acknowledged, Concerns are raised about the unevenness, gaps in achievements and unmet special challenges are identified. Embedded in the main philosophy of social science profession is to strive for social justice

and equality in society. Women being one of the most marginalized section across globe form an important group in social science mandate. Any effort to achieve MDGs based on any frame work must be perceived as meeting social science agenda as well. It is again this background that theme of the proposed conference revolves around “Gender equity : Social issues and health challenges in today’s context”.

India’s country report 2011 on Millennium Development Goals states that India is on track for some of the MDGs like combating extreme poverty, improving school enrolment and child health and controlling spread of killer diseases like AIDS, Malaria and TB but for other MDGs India’s progress is not very encouraging. However on other side there have been nations who have done exceedingly well and have met the goals set. We need to learn from these success stories as well. Thus, there is an urgent need to reflect, retrospect on worldly efforts in general and social as well as Medical interventions in particular in the larger global debate revolving around MDGs and plan future strategies in light of emerging framework for Post 2015 agenda.

The main objective of the conference will be to maintain the momentum for accelerating progress to post 2015, while taking stock of lessons learnt from efforts to achieve the MDGs so as to help understand the Global Medical & Social response to the development agenda beyond 2015.

SUB THEMES

Health

1. Psychological needs of women
2. Menstrual Hygiene and Health
3. Reproductive health
4. Maternal Mortality
5. Child Mortality
6. Role of men and women in family welfare/planning
7. Adolescent health
8. Women and Cancer
9. Women and Endocrine disorders
10. HIV/AIDS and STIs
11. Tuberculosis
12. Diabetes
13. Mental Health- Priorities
14. Women and Health care (affordability and accessibility)
15. Role of women in Health Programs
16. Occupational health
17. Disability and Rehabilitation
18. Geriatric health
19. Pharmacovigilance

Mental Health

1. Mental Retardation
2. Autism/Pervasive mental disorders
3. Learning Difficulties in children
4. Suicide
5. Depression
6. Adolescent mental health
7. Juvenile Delinquency
8. Substance Abuse

9. Work Stress/Burnout syndrome
10. Geriatric Mental Health
11. Personality disorders

Nutritional considerations and health concerns of women during life cycle

1. Nutritional needs across life stages
2. Current malnutrition scenario in women
3. Role of diet in women's health
4. Reproductive health issues

Women and their share in Human Rights
