Sub. Invitation to the faculty and students of the University to attend lecture of Prof. AR Ravishankara, USA on 5th of August at 7PM (Indian Time)

Sir,

The Indian National Science Academy (INSA), New Delhi will be webcasting a lecture by one of its foreign Fellows, **Prof. AR Ravishankara** on 5th of August, 2021 at 19:00 Hrs.

INSA (<http://www.insaindia.res.in>) is a premier science academy of our country which also represents India on the international science fora. Fellowship of the Academy is among the most coveted honours in the country.

Under the Foreign Fellows' Lectures at INSA platform, Prof. AR Ravishankara, Colorado State University, Fort Collins, Colorado, USA will be delivering a webinar on '**Lose Win Options: Are People in Developing Countries Paying with Their Lives to Reduce Climate Change**'.

Handwritten notes: Circulate All Depts, 28/7/2021, DR (over)

Handwritten note: Registration

Prof. Ravishankara is an internationally known authority on this subject and, equally importantly, an alumnus of the University of Mysore. He has specially suggested that the university faculty and students be invited to attend the webinar. The webinar will be streamed on WebEx platform and also streamed live on YouTube (link to be sent soon at the e-mail to be suggested by you) on 5th of August from 19:00 Hrs. I too feel that the students and younger faculty would be greatly inspired by listening to Prof. Ravishankara's words of wisdom.

It will be a great pleasure for Prof. Ravishankara and INSA if the University people join the event of this prestigious lecture by an alumnus of the University.

The poster of the event is attached. The link will be communicated separately (please suggest another e-mail, contact if desired).

Best regards.

Sincerely

CM Nautiyal

(Dr.) Chandra Mohan Nautiyal

MSc (UoR/IIT-R); PhD (PRL/ GU); FGSI; F-NCSTC-NW, FSES; INSA Medal for Young Scientist-88
